SUMMARY

I've been an SDE1 Frontend at Hiresure.ai for the past **1 Year**, and I'm very driven. I'm proficient in **HTML, CSS, Javascript, Typescript,** and frameworks like Bootstrap, css utility frameworks like **Tailwind Css** and **React Js**, as well as design libraries like **Material UI.** I have a keen vision to convert any wireframe , design given to me into a pixel perfect UI .

SKILLS

- **React Js**
- **HTML,CSS**
- **JavaScript,Typescript**
- **Material UI , React Bootstrap**
- **Bootstrap, Tailwind Css**
- **React Query , React-Hook-Form , React-Context , Redux Toolkit**
- **Git**

HOBBIES

- Singing and Guitar
- Writing, Sketching, Poetry

EDUCATION

2021
SRM Institute of Science and Technology | Chennai
Bachelor of Technology: Electronics and Communication

2017
Army Public School | Lucknow
Senior Secondary School(CBSE): PCM

2015
Army Public School | Lucknow, UP
Secondary School(CBSE)

WORK EXPERIENCE

06/2022 - Current
SDE-1 Frontend
Hiresure.ai | Bengaluru, India
COMP UP

- Created an UI library of reusable component followed by a Monorepo architecture.
- Closely worked with the Product and the design team and collaborated to convert the wireframes into pixel perfect UI.
- Storybook was used for proper testing and documentation of the UI components created.
- Created a platform for doing appraisal planning and budget simulation which can significantly reduce manual efforts for calculating the appraisal and other related calculation.
- Tech Stack Used - React , HTML,CSS,Javascript , React-Query , React-Context, Formik, Storybook, Lerna Workspace ,Echarts

T+90 (Post Onboarding Journey)

- Create a brand-new, entirely functional product from the ground up for the recruiters to give prospects a fruitful onboarding experience to the Candidates .
- In addition to Material UI serving as my primary styling library, I built this product using React JS.
- Created a reusable Component library that was used across the project for creating the recruiter and candidate dashboard.
- Tech Stack - React Js, Material UI , Javascript , React Context

Hiresure Dashboard Revamp

- Making an entirely working react application out of the existing dashboard, which was originally constructed mostly using HTML, CSS, and JavaScript for more efficient working of the application.
- Minimal UI Kit was used as the main styling theme for the project using which we created our own component library .
- React-Query was used for fetching , caching and updating data across the project and React hook Form was used for form state management and validation.
- Tech Stack Used - React Js, CSS, Material UI , Minimal UI Kit, React-Query, React Hook Form, Typescript, Apex Charts ,JWT token Authentication.

08/2021 - 05/2022
Graduate Trainee
Varroc Group | Pune, India

- Worked in the R&D software Department
- Integration of Free RTOS with RH850 microcontroller from scratch.
- Documentation of RTOS porting and Application porting from scratch.
